New Zealand's Aluminium Smelter MEDIA STATEMENT

27 April 2016

NZAS application to appeal 'Lieu Days' decision declined

NZAS has today received the decision of the Supreme Court declining its application for leave to appeal the lieu days matter.

"I welcome the certainty the Supreme Court's decision has given us," says NZAS Chief Executive and GM Site Gretta Stephens.

"Right now we are committed to working with our employees to finalise this matter as soon as possible."

NZAS remains focused on ensuring the future commercial success of New Zealand's hydro-powered aluminium smelter.

"We are committed to providing high value jobs in the Southland economy and being an employer of choice," says Ms Stephens.

There will be no further comment at this time.
